All racing boats meet the "FISA Minimum Guidelines for the Safe Practice of Rowing" concerning "Minimum Flotation Requirements!"

Caution: floated boats may tend to capsizel!

DESIGN: All shapes have been developed and optimized by Schellenbacher with most progressive methods of construction and special hull design CAD-software and are calculated with special hydrostatic software.

CONSTRUCTION: The hull is built with vacuum technology in a Nomex- Honeycomb- Sandwich construction with only Carbon- and Kevlar tissues. It is reinforced with Carbon-UD-tapes. The decks are also made in this sandwich-construction. The shoulders are carbon faced for extra stiffness. Air chambers under the seat decks.

FITTINGS: Easy adjustable riggers with Insert oarlocks - System CII, adjustable anodised aluminium tracks, ball beared seats, Carbon stretchers with Rowing shoes. Fisa limit weight. Hull in diamond white, Schellenbacher yellow or Schellenbacher fluorescent green. Decks in hull colour with white, yellow, red, blue, dark blue or green design.

Pleasureboats - Gigs, Type C+E and B-Boats

* in Type C min 78cm wide and E min 90cm available

| | | | |
|---------------------------|---|------------------|------------------|
| C2(x)+Type Regatta | Coxed double Gig Type „C“ for racing. Hull, decks and frames in Carbon – boat weight from 45kg ! | 9 900,00 | 11 880,00 |
| C2x+ Type RegattaC | Coxed double Gig Type „C“ for racing Hull, decks and frames in Carbon. Bulkheads under seats. Boat weight from 48kg | 10 230,00 | 12 276,00 |
| C4(x)+Type Regatta | Coxed quadruple scull Gig Type „C“ for racing. Hull, decks and frames in Carbon – boat weight from 70kg | 13 800,00 | 16 560,00 |
| C4x+ Type RegattaC | Coxed quadruple scull Gig Type „C“ for racing. Hull, decks and frames in Carbon. Bulkheads under seats. Boat weight from 74kg | 14 430,00 | 17 316,00 |

Most Gig boats don't meet the rule „FISA Minimum Guidelines for the Safe Practice of Rowing“ concerning „Minimum Flotation Requirements!“, B Boats meet this rule. / Boats cannot sink. / Specific weight of boats equal or less than 0,5 depending on the model.

ALL HULLS ARE UNSINKABLE BECAUSE OF SANDWICH CONSTRUCTION! TOTAL SPECIFIC WEIGHT ≤ 0,5! FLOODED AT LEAST 8KG EXTRA BUOYANCY PER SEAT!

BOAT TYPES: GIG-BOATS Type C and E are normed open boats. Standards are existing for length, widths, and weight. The old B-BOAT-CLASS boats are the first normed - original strip planked - „Racing boats“. In this time - our modern constructions with excellent shapes - rowers like them as fast pleasure boats with best properties in waves. Standards still exists.

CONSTRUCTION: Built with Vacuum technology and the Know-How of our Hi-Tech Racing boat production. The hull is built in a Foam sandwich construction with Glass fibre- and Kevlar tissues in Epoxy. Carbon laminate for step up on the strengthen keel-area. Epoxy-Gelcoat. B-Boat decks in bow and stern with bulkheads in distance to the cockpit to have enough space for luggage.

TOURING – with wooden interior / **SPORT** – with stabile carbon sandwich decks, frames are carbon faced / **SPORTC** – as Type Sport but with chambers under the seat decks. **TYP REGATTA** – light and stiff Carbon/Kevlar/Sandwich construction, Carbon frames. **TYP REGATTAC** – as Type Regatta but with chambers under the seat decks.

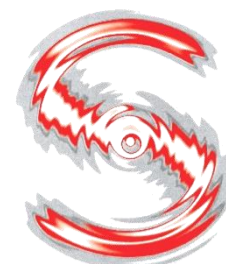

EQUIPMENT: Easy adjustable single tube aluminium riggers, oarlocks system CII, adjustable anodized aluminium tracks, ball beard seats, plywood stretchers with Nylon straps and wide Heel holders or Flexible-Foot stretchers, cox seat for folding or insert able, Aluminium keel strip, big bow ball. B-Boats: sandwich construction, covers in bow and stern with bulkheads like racing boats. Touring version with storage below decks. Standardized design. Wing riggers on request, because of not in all models or versions possible.
